***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 2<sup>nd</sup>, 2004 has been entered.

***Response to Arguments***

2. Applicant's arguments with respect to claims 60, 67 and 69 have been considered but are moot in view of the new ground(s) of rejection.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 60, 67 and 69 are rejected under 35 U.S.C. 102(e) as being anticipated by Jebens et al (U.S. PG Pub 2001/0002204).

5. As per claims 60, 67, 69, Jebens et al teach a system/method and a medium (*data management and order delivery system*) for managing order received from a first shop (*browsers and client orders, 12*) and order placed with a second shop (*suppliers, 16*) (*see abstract, fig. 1*) comprising communication means (*telecom, internet/intranet*) for communicating data indicating statuses of orders received and placed (*clients orders*), control display (*browsers, 766*) of a combination of management items which indicate statuses of order process from order determined to acceptance and each number of the orders received of the first group of management items, the first group under a first icon which are for discriminating first group of management items as the order received, and a second combination of a second group of management items which indicate the statuses of order process from order determined to acceptance and each number of the orders placed of the second group of management items, the second group under a second icon which is for discriminating the second group of management items as the orders placed (*see fig 10C-10J, paragraphs 0097-0109*), wherein the display control means prohibits the first combination to be displayed except for the first icon, in case where the orders received is not existence and the second combination to be displayed except for the second icon in case where the orders placed is not existence (*see fig 10C-10J, paragraphs 0097-0109*).
